EXAMINER AU 3761

***Allowable Subject Matter***

1. Claims 10-15 are allowed.
2. The following is an examiner's statement of reasons for allowance: Applicant's arguments filed 12/14/04, particularly arguments found on page 5, paragraph 1 are persuasive. The claim(s) are considered definite because the examiner cannot show by clear and convincing evidence that one of ordinary skill in the art upon consulting the specification would not be able to determine the scope of the claim(s). See in general; *W.L. Gore & Associates* 721 F.2d 1540, 220 USPQ 303 (Fed. Cir. 1983), cert. Denied, 496 U.S. 851 (1984).

The claim(s) are considered patentable over the prior art of record as the examiner cannot show by clear and convincing evidence that the functional or characteristic limitation claimed necessarily flows and/or is inevitably present in the teachings of the prior art of record. There are other attributes undisclosed in the prior art that necessarily affect the functional or characteristic claimed; therefore, the application of prior art is not warranted. See *Ex parte Latimore*, (Bd. Pat. App. & Inter. 3/21/1994), *Ex parte Levy*, 17 USPQ2d 1461, 1464 (Bd. Pat. App. & Inter. 1990).

The overall claimed combination of a material capable for use as a distribution strip in an absorbent structure comprising cellulosic fibers as claimed treated with the claimed group of polyvalent ions with the claimed ranges of basis weights and densities is neither anticipated nor rendered obvious by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
